

NOLA

NOLA MICRO GRAND REFERENCE GOLD 3 LOUDSPEAKER

The **NOLA Micro Grand Reference Gold 3** is a stand mounted loudspeaker that utilizes the same driver and crossover technology as other Reference Gold models such as the Baby Grand Reference Gold. Unlike most stand mounted speakers, the Micro Grand Reference Gold utilizes our 3½ way Unison™ crossover, four driver technology -- basically a reduced size version of our statement floor standers. The driver array utilizes our 45-degree, mirror-imaged concept for midrange and tweeter. The twin 120mm gold magnesium cone woofers are now driven by massive Alnico ring magnets for increased definition, clarity and even lower distortion. The solid copper phase plugs are gold plated to provide damping by the soft gold layer over the solid copper. This concept eliminates any last vestige of coloration from these drivers. Bass is tighter with more impact. The new midrange drivers now incorporate tri-laminate cones driven by massive “super Alnico” magnet systems for impressive “life-like” attack.

The new true ribbon tweeter is also incorporated which extends response to 100 kHz. This extended bandwidth provides an increased sense of "reality" over the whole range including the bass.

The lack of any enclosure in the midrange or high frequency range eliminates any possible enclosure coloration in this critical region -- something that cannot be achieved with any kind of box speaker.

A major breakthrough in new crossovers has led to a stunning upgrade in performance.

The **Micro Grand Reference Gold 3** utilizes a built-in double platform base with custom ball bearing isolators to further reduce coloration due to floor borne vibration. The bases are finished in true piano black.

Specifications

Dimensions:	24" H x 9.5" W x 9.5" D (speakers) 2" H x 11.5" W x 11.5" D (bases)
Recommended stand height:	17" to 18"
Weight:	35 lbs. net per side
Frequency Range:	36 Hz to 46 kHz
Sensitivity:	86 dB
Impedance:	8 ohm nominal / 4 ohm minimum
Finish:	True Piano Rosewood with True Piano Black bases is standard. Piano Black and other finishes available by special order.
