

# NOLA

## NOLA ANNOUNCER 2 LOUDSPEAKER

The **NOLA Announcer 2** is a high performance center channel loudspeaker that perfectly matches the **NOLA Contender 2** and the **NOLA Boxer 2** for multi-channel and home theater applications.

The **NOLA Announcer 2** employs two low mass 6½ inch bass / midrange drivers and one high resolution silk dome tweeter. The bass / midrange drivers are mounted in a sealed cabinet for ease of installation and excellent dialogue intelligibility in real-world applications.

The two 6½ inch woofers have been upgraded from the original and provide increased mid-band transparency and deeper bass response.

The high 93 dB sensitivity and smooth impedance characteristics allow ease of interfacing with real world systems and rooms.
